

JAMAICA *25 y.o. Supreme Lord VIII*

Appearance *Copper*

Nose *Starting on intense estery notes of fermented fruit, with the typical funkiness of heavy Jamaican rums. Intense, but also sweet and not aggressive. Dried raisins, glue, cola, medical rubber bandages.*

Palate *Winey and fruity, but much drier than expected. Very spicy and peppery, with a pleasant amount of tannins from the casks. Again a big estery character, plus notes of gentian root and other bitter medicinal herbs. Tar and a hint of smokiness.*

Finish *Long, hot, always heavy on the funky, spiced and fermented fruit notes.*

Comment *A powerhouse of a rum, in which the typical Jamaican funky aromas explode supported by the cask strength degree.*
