

## JAMAICA *5 y.o. Rel. 2016*

*Appearance*    *Dark gold, with apricot nuances.*

*Nose*            *Deep, balsamic, with notes of camphor and the typical estery Jamaican “funk”. Cane sugar, some fermented and winery notes.*

*Palate*          *Identical to the nose, but also with notes of wood resin, pine needles, black pepper, and a hint of flour. There is a background sweetness, but the overall impression is dry and spicy. Raisins, old wood.*

*Finish*           *Hot, peppery, lively. The “funky” Jamaican note lingers on the tongue for a long time.*

*Comment*      *A robust Jamaican rum, very aromatic and spicy, but made gentler and rounder by the winery and raisiny influence of the sherry casks.*
