

JAMAICA *White Pot Still 57%*

Appearance Shiny and crystal clear.

Nose Incredible aromatic impact from the esters due to the long and slow fermentation: glue, green bananas, wood polish, and a slightly sour note.

Palate Intense, explosive, but not sharp. Like the nose, but sweeter. Notes of pepper, green olives, and then it turns vegetal: aromatic herbs, palm leaves, freshly sawed wood.

Finish Persistent, almost endless. It retains notes of glue and green vegetables, with a suggestion of smoke, grappa and tequila.

Comment A new entry for Rum Nation, a mind-blowingly intense and characterful rum, capable of bringing personality to every cocktail but also delicious for sipping.
