

JAMAICA *7 y.o Cask Strength*

Appearance Intense gold.

Nose The alcoholic strength is evident but not overwhelming. Strong notes of cinnamon, orange rind, camphor, nutmeg. The typical Jamaican aroma of esters and fermented fruit.

Palate Definitely dry, with no evidence of sugary residue. Extremely peppery, rich with cinnamon, cloves, liquorice and medicinal herbs. Intense, raw, enveloping.

Finish Very dry, with a long lingering taste of aromatic herbs and cooking spices, and a slightly vegetal and salty aftertaste..

Comment A Jamaican rum in its most natural presentation: bottled at full proof, at the same strength it comes out from the barrels. For those looking for strong and raw experiences.

Suggested match Valrhona Caraibe 66%, a dark and intense but velvety chocolate from the Caribbean, the same area of origin of the rum.
